

ABOUT ME

I'm a full stack geek with a lot of love for latest technologies. Experienced in **Ionic Framework**, **ASP.NET**, **JAVA/Android** and **UI/UX Designing**. I'm an excellent communicator and focus on using my interpersonal skills to build state-of-the-art softwares and user interfaces!

EXPERIENCES

Web Developer

December 2015 – Present

Aik Pencil UX, Lahore

While working here, I **developed the website from scratch**. Along with designing User Interfaces and User Experiences for multiple projects.

Lead Developer

2016 – 2017

PUCIT ACM Student Chapter

Acting as a Lead Developer, my job was to supervise the creation and maintenance of PASC's website built on **Wordpress** CMS.

Graphic Designer

2015 – 2016

PUCIT ACM Student Chapter

As a Graphic Designer, my job at PASC was to **design eye-catching designs** that represented the chapter and it's ideology for various. Events as big as SoftExpo'16.

UI/UX Designer

July 2015 – October 2015

Trequant | Incubated in Plan9, Lahore, Pakistan

At Trequant, my job was to create the **interface for their Bio-tech prototype** - which consisted of a wrist-watch. Also, my job was to make **designs for their Social Media Marketing campaign** and for their website.

Web Development Intern

September 2013 – March 2014

Geniusity, Lahore

While working for Geniusity, I learned languages such as **HTML**, **CSS** and **JavaScript**. I also had my Graphics designing training and worked my way towards the field of **UI/UX Development**.

Content Generation and Designing

April 2014 – February 2015

Humans of PUCIT, Lahore

It was a personal project that served as an online publication and focused on the ins-and-outs of my University. My job was to **conduct interviews**, **generate content** and **make designs**.

PROJECTS

Here a some of my projects.

Aik Pencil UX - AIK PENCIL UX is a UI/UX Agency that deals with designing and development of web and mobile interfaces.

Snazzout - A hybrid application, made on **Ionic Framework** that allows users to search different brands, rate/review them and stay updated to their latest news.

PASC Website - PUCIT ACM Student Chapter Website for thier Events/Contact/Updates and Team information.

UI/UX/Designing Projects - Some of my UI/UX and Designing related work on Behance.

Feedbot - A very standard news publication website, developed on **ASP.NET** that allows the users to select from predefined categories and get news related to those categories.

WebDealer Solutions INC - Static website made for a Canadian Firm, mainly using Pure **JavaScript**, **HTML**, **CSS 3** and **Twitter Bootstrap**.
